*Comment écrire les lettres arabes ?*

كيف تكتب الحروف العربية ؟

# Explications sur les tableaux

- 1) Chaque lettre est indiquée sous quatre formes différentes, dépendant de leur place dans le mot : isolée, initiale, médiane, finale.
- 2) Les lettres formées sur le même *ductus* partagent une même fiche (ex. le ب, le ت et le ث).
- 3) Les flèches indiquent la manière dont il faut tracer le *ductus*, et l'ordre des étapes.
